

# Sentry Cable Tag Holders

## The Ultimate Solution for Tracking Valuable Cables

### Overview

With traditional asset tracking methods, finding data is extremely time-consuming. Premium RFID tags like Vizinex’s Sentry Cable, on the other hand, provide the information instantly. Unfortunately, there was never an effective, durable way to attach rigid RFID tags to cables ... until now.

Introducing the Sentry cable tag holders. Made of high performance thermoplastic polyester resin, secured with industrial-quality screws and specifically designed for the Sentry Cable tag, they’re designed to stand up to the harsh conditions to which cables are often subjected. From impact and pressure to temperature extremes, the cable tag holders keep an onboard RFID tag safe and secure – ensuring the data you need is always at your fingertips.

### Features & Benefits

- ▶ High performance construction and attachment keeps RFID tags functional and in place – even in extreme environments
- ▶ Durable window for visual confirmation and barcode scanning
- ▶ Integrated rope holder for easy securing of cables
- ▶ Fully compatible with the highly durable Sentry Cable RFID tag
- ▶ Available in all prime colors, black and white. Custom colors and customer branding available at extra cost.

### Product Size Specifications

Part Number	I.D.	Dimensions	Typical Uses
VIZH300	0.300"	1.96" x 0.88"	CAT5, DMX Microphone
VIZH430	0.430"	2.11" x 0.93"	12/3 SJOOW, #4 Stage, #6 Stage
VIZH540	0.540"	2.526" x 0.972"	#2 Stage, 12/3 SOOW
VIZH700	0.700"	2.66" x 1.21"	12/3 SOOW, #2 EISL
VIZH880	0.880"	2.93" x 1.49"	19Pin Ext, 4/0 Stage, 6/4 SO
VIZH1100	1.100"	3.23" x 1.88"	4/0 Type W, 6/4 SO HMI Feeder
VIZH1312	1.312"	2.87" x 1.93"	5 Wire Banded Cams, 19 Pin Breakout

➤ **The Sentry Platform**

Vizinex RFID's Sentry line of high performance, cost-effective, and application-specific RFID tags are based on a printed circuit board platform. This well-established manufacturing process offers unsurpassed reliability and consistency in read range performance. At the core of the tag is a fiber-reinforced composite material that gives the Sentry tag its innate ruggedness. The innovative, patented tag design enables fast prototyping and affordable customization - essential to the expanding requirements of the RFID industry.

➤ **Sentry Cable RFID Tag Specifications**

- Available exclusively from Vizinex, the Sentry Cable RFID tag is the industry standard in cable-specific asset tracking solutions
- Fully compatible with Sentry Cable Tag Holders
- Read range of 15-18' for complete and accurate asset management
- Designed to last the entire lifespan of the cable – even in extremely harsh environments
- EPC up to 128 bits, 96 bit TID and up to 64 bits of user memory
- Low profile: 1.43" x 0.43" x 0.11"

**What can Vizinex RFID do for your company?**

**About Vizinex RFID**

Vizinex RFID, headquartered in Bethlehem, PA, designs and manufactures RFID tags for diverse asset tracking applications from rugged environments in the oil industry, to medical devices requiring repeated sterilization, to long-range vehicle tracking. With prototyping and manufacturing located in the U.S., our time from concept to delivery is unmatched. Vizinex RFID maintains a tradition of innovation, superior functionality and outstanding customer support, allowing us to deliver RFID ... the way you imagined.
